Student Senate

Passes Resolution and Hears CGA President's Opening Address

At the first meeting of the Student Senate for Winter Quarter, Jan. 9, two Senate Resolutions were passed, both unanimously. Resolution No. 8, in establish the Society for Campus Concern, was presented by Senator Donna Fullwood as the chairman of the Student Activities Committee, in which the resolution had been referred for study at the last meeting of Fall Quarter. Senate Resolution No. 9, was also passed unanimously. President Mary Jane Hunt, because all discussion was calm and unemotional, said, "This is going so smoothly it is surreal now."

At its second meeting of the Winter Quarter, on Jan. 13, Senate Bill No. 4, to establish the Department of the Attorney General, was read by Senator Susan Jackson. As a purely discussional bill by Harvey Beyerf, Ralph H. Dickey, Frances Mauze, and Lee Washburn was given permission to address the Senate by President Mary Jane Hunt, while David Pettigrew added comments evidently thought humorous by some members of the Senate, the newly elected Senator from Emory Dorn, Ken

Gragg, remarked that "all this arguing over trivia is getting really old" and admonished the Senate to get busy. President Mary Jane Hunt finally called for the vote, whereupon Senator Susan Jackson's amendment for those opposed to the bill. Senator David Vinning and Senator Ken Ackerman spoke and left the meeting. The vote was taken and the bill was passed by a vote of 13. Senator Pettigrew then brought up the question of whether there was a quorum present. President Hunt referred the question to the Bulletin of the Student Senate, which advised that there was a quorum present and the vote was valid. This remark evoked applause from one minority student who attended the meeting.

Senator John Gragg of the Rules Committee, read a proposed bill providing for the receiving by the Senate of copies of all bills and resolutions at least one day before the Senate met. The Senate then referred the bill to the Senate Senate. Action on this bill was tabled.

At this point in the meeting, CGA President Prelley addressed the Senate for her quarterly report on the state of

THE COLONNADE

Vol. 45, No. 9

Georgia College At Milledgeville

January 24, the Miss Aurora Ball will be held in the Georgia College Gymnasium. The "Madmen of Muscatine," a fifteen-piece dance band will provide the entertainment and the dance will be highlighted by the crowning of Miss Aurora. The candidates for the Miss Aurora Court are chosen by popular vote of the classes. Each class has two representatives to the court, with the exception of the senior class, which has three. The queen is chosen from the three senior candidates by popular vote of the senior class.

Candidates for the 1970 Miss Aurora Court include the senior class: Ellen Bryant, Cheryl Clary, and Mary Jane Hart, from the junior class Cynthia Floyd, and Shannon geometries from the sophomore class: Tricia Rains and Linda Thorndike, and from the freshman class: Nancy Morgan, and Anne Smith.

The Miss Aurora Ball is sponsored by the senior and junior classes. General Chairmen are Kathy Crow and Brenda Armstrong and Publicity Chairmen are Linda Lawson and Judy Johnson. Nancy Charline and Kathy Ethridge are in charge of decorations. Decoration Chairmen are Diane Woodard and Pat Edding. All department Chairmen are Susan Stewart and Pat Edding.

Anyone wishing to work on any of these committees should contact the respective Chairman as soon as possible.

Butterscotch Monday to Entertain at the Kaffee Haus

There will be a dance Friday night at the Kaffee Haus, with entertainment provided by the Butterscotch Monday. Time is from 8:00 to 12:00 a.m. All guests must be accompanied by a GC student, and there will be $1.00 for students and their guests.

The annual Miss Georgia College Pageant will be held February 14 at 6:00 p.m. in Russell Auditorium. A group of singers, under the direction of Richard Wall, will provide on entertainment on the night last year's queen, Colleen Taylor, will crown this year's beauty. Plans for the pageant are under the direction of a committee composed of Cynthia Floyd, Barbara Lutts, Laura Spons, Linda Thorndike, Richard Wall, and Diane Woodard.

College Union One Step Closer

Dr. Alan Jones, Director of Institutional Research and Planning, has reported to the Colonnade that all bids have been submitted for the construction of the new Colonnade. The building can be built without any alterations, and evidently, voters will be able to see more progress in the near future than has been the case up to now.

Dr. Jones also said that bids will soon be submitted for the new dormitory, planning of which is going directly on schedule.
By the Students and for the Students

Letters to the Editor

Rights and Responsibilities

Editorial

Dear Editor,

Recently there has been some discussion among the student body regarding the issue of whether or not the Colonnade should be made available to the general public. Some students feel that this would be beneficial for the college and its students, while others believe that it would be detrimental to the college and its students.

I would like to express my perspective on this issue. I believe that the Colonnade should be made available to the general public for several reasons.

Firstly, I believe that the Colonnade should be made available to the general public because it would allow more people to read and understand the issues that are being discussed by the students. This would help to increase the awareness of the college and its students and allow more people to see the positive aspects of the college.

Secondly, I believe that the Colonnade should be made available to the general public because it would allow more people to participate in the discussion and contribute their own thoughts and ideas. This would help to increase the diversity of perspectives and allow for a more inclusive and dynamic discussion.

I believe that the Colonnade should be made available to the general public because it would allow more people to read and understand the issues that are being discussed by the students. This would help to increase the awareness of the college and its students and allow more people to see the positive aspects of the college.

The residents of the dorm that had their chance to ask questions were pleased with the result. Through these questions, Dean Reaves was able to gain a better understanding of the students' concerns and provide more accurate responses. The students seemed to appreciate the opportunity to speak directly with the dean and felt that the interaction was positive and productive.\n
Mr. Harley’s Crew Works Hard

Mr. Harley of the Marine Corps Department needs a hard working crew of ten. They were only in camp during the last two days of the year, so they are off this week. They are to receive a hard working crew with a clean up crew in every aspect, and they are scheduled to be here until the end of the semester. They are working on their daily activities. They are currently on a new site to service the buildings in the town. They have been working with the local authorities to improve understanding of international relations.

Choral Workshop

There is going to be an Organ and Choral Workshop at Georgia College and State University on Friday, March 15th, 2013. The workshop will feature guest conductors Dr. Judi Tisdale and Dr. David Tisdale. The workshop will be held in the Concert Hall on the campus of Georgia College and State University.

**Women's Gymnastics**

**GC Sweeps By Furman University**

Saturday, January 11, Georgia College's gymnastics team scored a 166.40 to 164.46 win over Furman University. The title exercise was "Walking the Mat," performed by Tina Nottin, Ellen Hicks, and Sheila Wood (GC) scored a total of 16.40 points in free floor, whereas Furman scored only 15.64. Tina Nottin, a newcomer to the team, did well in her first interscience meet. The team event was "Trailing," Pat Floyd, Sheila Wood, Ellen Hicks, and Wyline Spradley represented GC. The score is realized was 01.0. Furman 0.40. Pat Floyd and Wyline Spradley, two team members, showed great promise as gymnasts.

The next event was the "Balance Beam," The Petite ferry, Sheila Wood, and Crystal Fountain represented Georgia College. GC's score was 15.25, Furman 14.44. Crystal Fountain had a strong performance, and Floyd remains high over on the team. The final event was the "Bars," Nancy Meyers, the team leader. The team had a new training machine, GC scored 13.06, Furman 12.06.

The total scores of the meet were Georgia College 166.29, Furman 164.46. GC's four point win was well deserved. The team has been practicing hard for competition with Florida State.

**Biology Dept. Has Received Grant**

The biology department of Georgia College at Milledgeville has been awarded a $20,000 grant under the National Science Foundation's Undergraduate Research Participation Program. The Department chairman, Dr. David O. Critter said the funds will be used to support and equip a special ten-week research project for five undergraduate biology majors. The project is scheduled to begin June 5 and end August 15.

Critter will serve as Director of the program and Dr. Harold Lippman of the GC biology faculty will serve as Co-Director. During the ten weeks, Critter said, the students selected for the program will be engaged in individual or group research projects designed to study specific problems in the field of biology. Critter added that the program is intended for students at Georgia College, but is open to students at other colleges in the Central Georgia area as well.

Requirements for participation were laid by Critter as high academic average, a background of at least five hours of biology coursework, and a strong interest in the sciences to be demonstrated by the individual candidate. The students participating in the project will be expected to attend regularly scheduled class meetings, but will have the option of choosing their own research career to be supervised by Critter. The students will be expected to present their findings to academic journals for publication.

This is the second such grant to be awarded to the GC biology department. Two Georgia College students carried out research in 1987 at the Savannah River Ecology Laboratory under a similar program.

The purpose of the program, Critter said, is to encourage talented students to attend graduate school and to eliminate any apprehension they may have concerning independent scientific research.

**Baarda Awarded Grant for Lab Innovation**

Dr. David G. Baarda, Associate Professor of Chemistry at Georgia College in Milledgeville, has been awarded a $33,000 grant by the Division of Chemical Education of the American Chemical Society. The grant is part of an experimental Small Grants Program funded by E.I. DuPont de Nemours and Company. The program is designed to support educational projects which appear to have potential for improving teaching methods in the field of chemistry.

The funds made available to Baarda will support innovative teaching projects, student initiative and experimental investigations in the classroom, and participate in the United States Chemistry Olympiad. Baarda says the central theme of the undertaking is to use a unique chemistry laboratory investigation rather than a collection of routine experiments as the content of these courses.

**Sports Briefs**

**Every Monday and Wednesday at 4 p.m. girls intramural basketball meet in the large gym.**

All men students who are interested in intramural basketball, see Mr. Rossman. Intramurals will start January 19.

**All students interested in competing in intercollegiate tennis spring quarter see Miss Taylor or Mr. Curtiss in the FIFER building. Teams will start forming soon.**

Mr. Anderson announced that the Colonial Club has designated a patch. This patch is on sale in the bookstore.

GC's Lady Gymnasts to Face Six Universities in Eight Meet Schedule

The women's gymnastics team presented the most successful of Georgia College at Milledgeville's athletic squad last year—will compete in an ambitious eight-meet schedule this year.

Last year, the first of intercollegiate competition at Georgia College, the lady Colleens posted a 23 point win with over the University of South Carolina and Winthrop College. Gymnastics Coach Delene Darst said the 1987 schedule will feature meets with six universities, beginning with the January 16 opener at home against Furman.

The balance of the schedule Darst Participates in Gymnastics Clinic

Mrs. Darst, Director of GC's Department of health, physical education, and recreation was at the University of Arkansas, December 23-26, to conduct the women's program at the Western National Gymnastics Clinic.

In all, she worked with student gymnasts at all levels of proficiency, and also conducted a class for judges.

She is one of four people in the country qualified to conduct the "judges' clinic" and test the participants using the National Division of Girls and Woman's Sports United States Gymnastics Federation Certification.

Education projects which appear to have potential for improving teaching methods in the field of chemistry.

The funds made available to Baarda will support innovative teaching projects, student initiative and experimental investigations in the classroom, and participate in the United States Chemistry Olympiad. Baarda says the central theme of the undertaking is to use a unique chemistry laboratory investigation rather than a collection of routine experiments as the content of these courses.
