Orientation Dance Features Big Brother, Mudflaps

Saturday, September 21st, the Freshman Orientation Dance will be held in the college's new Student Center from 8-10 p.m., with the entertainment provided by the BIG BROTHERS and the HUCKLEBERRY MUDFLAP.

Nash and Young entertain their listeners with perfect vocal harmonies; Chicago and Woodlawn bring their brass arrangements; BIG BROTHERS shares their audiences with a visual bombardment of the senses. The stage becomes an electrifying circus of leaping frenzies of hair and grinding rhythms resulting in a perpetual explosion of audio and visual experience! When one leaves a BIG BROTHER concert, he is totally exhausted. It was as if he had been performing himself...there is a split second when audience and artist become one.

BIG BROTHER is now establishing its own identity with the release of their new album "Confront," featuring Zite Joseph. All of the songs are originals other than the classic "St. James Infirmary" to which they give their own special treatment. ZEP, one of Zite's songs, has been released as a single and is doing well on the national scene. Much of the material is done...something that all of the group has known since their individual childhoods in southern California and throughout the earlier years during the formation of the group. Now, with the success which they have enjoyed during the past few years it has been possible for them to help their families who originally enabled them to buy instruments and study music. The so-called generation gap which is continually remaining so much notoriety lately, does not exist between these talented young artists and the people who gave them their beginning. Speaking of beginning, many of the boys in the group grew up in California with many of the other pop rock stars of today including Chuck Negron of Three Dog Night, David Crosby of Crosby, Stills, Nash and Young, and Johnny Bartha of The Turbines.

A recent discussion concerning the cost of tickets for CGA sponsored dances presented several proposals that could possibly lead to more satisfactory results for the students. Before presenting these proposals to you, the students, to find out your opinion of them, a thorough understanding of the manner in which your Student Activity Fees are appropriated is necessary.

Student Activity Fees of $14 per quarter have been allotted on the assumption that GC will have 1700 students fall, 1698 students winter and 1696 students spring quarter who will be paying fees. Student Activity fees must be paid by all students carrying six or more hours, whether resident or day students. This total, 97,348, is allocated, after extensive study of each group's budget request, among twenty different groups, organizations, and publications. In addition to each allotment most groups are expected to collect a certain amount of revenue during the academic year.

To cite a few examples:
1. All athletics groups and activities have been allotted $32,100. $30,000 of which goes to cheerleaders for uniforms, equipment and travel expenses. All athletic functions, though free to all GC students, are expected to raise $500 from ticket sales to local towns.
2. The GC Cheerleaders have been allotted $17,900 based on the assumption that they clear $600 through gifts and admissions.
3. Pop Concerts have been allotted $5,400 and are to raise $2,000.
4. Spectrum has been given $1,800 provided they sell ads in the amount of $600 and collect picture fees in the amount of $600.
5. The Calominade has been allotted $6,100 expected to collect $2,400 of this total in ad revenue.
6. The Student Activity Dance budget has been granted $7,100 provided it takes in $2,000.
7. The proposals mentioned earlier can be discussed. The first alternative is no charge no admission to any GC student for any dance scheduled. Though no fee would be charged it must be understood that only $8,100

**Students Aid Teachers Through Taps**

Plans are going ahead at Georgia College for the new innovation of the high success TAPS program, according to Dr. John Lemieux, chairman of the college's education department.

Under TAPS (Teacher Aide Program) of Georgia College, 24 students from the college's professional education program Education 24, are assigned to work as teachers in the classroom of public school teachers who volunteer to participate. Each of Baldwin County's public schools was involved.

TAPS, Lemieux said, is designed to give prospective teachers early experience in the classroom environment, making the college's program of student preparation more meaningful.

The students work in their assigned classrooms for a minimum of 10 hours, primarily during one three-week period.

In addition to giving students valuable classroom experience, Lemieux said, the program provides teachers with badly needed assistance and some relief from clerical and other time-consuming chores.

After completing Education 24, the students are given an opportunity to return to the classroom as part of their work in Education 24. In the course of this course, the students work with individual children or small groups for four to three hours per week over the next two years.

Lemieux said the program's success is indicated both by the unqualified enthusiasm of the students, many of whom went beyond the required time, and for the fact that the teachers in whom the students worked wanted them to return.

**Dates Set For NTE Exam**

PRINCEWILLER, NEW JERSEY--Registrants for College Entrance exams will be preparing to take what may be the National Teacher Examination as any of the four different exams announced today by Educational Testing Service, a nonprofit, educational organization which produces various examinations in the testing program.

Next date for the testing of prospective teachers at November 15, 1971. Only 4, and July 2, 1972. The latter will be given at nearly all locations throughout the United States, ETS said.

Benefits of the National Teacher Examination are and opportunities to take advantage of various careers as one of the factors in the selection of new teachers and for students interested in teaching.

School systems and state departments of education which use the entrance exams are found in more than 100 states.

**Lightfield To Publish Works**

An article by B. Timoldy Lightfield, instructor in English at Georgia College, has been accepted for publication in the February, 1971, issue of The American Journal of Sociological Research: A Sociological Journal's Social Research.

Lightfield's article, "Opportunities and Dynamics of Sociology," is based on research into the publication and recognition patterns of sociological articles.

In it, he examines the relationship between sociological publications, the quality of publications, the association of the departments in which they are done, and the recognition associated with them.

Lightfield, a member of the sociology faculty since 1968, holds the B.A. degree from Florida State University and the M.A. from the University of North Carolina.

Hoke Expresses Ideas On Campus Change

by Eugene Heimann

Dean Hoke is a proponent of, and support of, constructive ideas and campus change. Each year, he makes the improvements in our college that the students want to see.

Hoke is the Dean of Student Services at Georgia College.

Hoke's influence is in the trend towards constructive ideas and campus change. Hoke's influence is in the trend towards constructive ideas and campus change. Money Or Nothing

In the past two years there has been much state and local campaigning for issues affecting our everyday lives. This past year will provide yet another such battle as the campaign kicks off with a candidate forum. On page 6 you will find the program of the forum. The candidates will be available to answer questions from the public. The format will be somewhat informal, with no predetermined agenda. The candidates will be asked to discuss issues as they arise, and the audience will be encouraged to participate. The forum will be held at the Georgia Center for the Arts, 105 E. Broad St.

10 Ways To Get Ostracized

If you have a genuine hatred of people, but despite all your efforts to be obnoxious, can't effectively isolate yourself from society, need less than a few and go on an ineffective offensive.

I. Always talk about yourself and show an interest in the other person. So when you say something interesting, remember the listener is important.

II. Never be silent. Remember that silence is golden. You'll want to talk more later if you really want to talk.

III. Don't smile. A pleasant smile is the best way to make friends. With other people who are happy, smile and enjoy the company of happy people.

IV. Don't rub yourself against the wall. If you rub your my friends' leg, they may get tired of your company. They may want to rub their own leg, not yours.

V. Don't delete. A pleasant smile is the best way to make friends. With other people who are happy, smile and enjoy the company of happy people.

VI. Don't be a bore. If you talk to someone who is not interested in what you are saying, they may want to talk about something else.

VII. Never be silent. Remember that silence is golden. You'll want to talk more later if you really want to talk.

VIII. Don't delete. A pleasant smile is the best way to make friends. With other people who are happy, smile and enjoy the company of happy people.

IX. Don't rub yourself against the wall. If you rub your my friends' leg, they may get tired of your company. They may want to rub their own leg, not yours.

X. Never be silent. Remember that silence is golden. You'll want to talk more later if you really want to talk.

The Colonnade is a large resource of information for your education from here on out. There is one thing you should know: "bare your scalp, dear." Professors may not be the best guides for you, but when you come from them is the best way to prepare yourself for the rest of your life. So if you are unhappy with your education, you may consider a career of writing or teaching. In the meantime, you may want to talk about yourself and show an interest in the other person. Remember that silence is golden. You'll want to talk more later if you really want to talk.

Soccer Team On The Ball

The GC Soccer Team got under way this year with their opening game against the U. of Ct. at Trinity. This game is a regular season game and an all high school game. It was the first time that these two teams had ever met each other. The game was played on the GC field and was attended by a large crowd. The game was scoreless and the final whistle blew with the score tied at 0-0.

Athletic Supporters

Mrs. Harriet Beavers has announced a meeting for all interested girls in the school. The meeting will be held in the gymnasium at 3:30 PM. All interested girls are invited to attend.

GC Gets Computer Center

The GC Computer Center, located in the new Agricultural Science building, was officially opened on October 1st. The center was opened to provide students with a new and modern facility for computer use.

Welcome Students And Faculty
Big Brother, Mudflaps
Court. from Page 1
Their song "Nobody Cares" is a good example. The Mudflaps are not against society; they believe in society, but admit it is not perfect. Other compositions such as "Get Out and Work" separate them from the "don't give a damn" beat groups. "Lucas Jones" and "Big Man" demonstrate belief in morality. In short, The Mudflaps believe in responsibility, education, hard work, and morality. They live for the charge.

GC Begins Honors Program
Court. from Page 1
This year ticket prices will be reduced for freshmen and transfers, as compared to prices for old students. Weekend ticket prices have been set at $10 cents for freshmen and transfers and $5.99 for upperclassmen. Freshmen tickets will be sold in the student Union on Friday from 9-10 and on Saturday from 9-11. All tickets at the door will cost $5.50. except for nonstudent tickets which will be $2.00.

Beware Freshman
Court. from Page 1
If you think there is nothing to do in Milledgeville, then you might not be going to the right place at the right time. Early Tuesday morning Pat Ellington and Kathy Sullivan woke to find that the opportunity of witnessing the destruction of a newly raised monster mill. State agents Jimmy Fowlser and Bill Callahan accompanied by federal agents Bob Harding and Don Cox raided the mill which was located west of Baldwin County, just a minute three off Highway 31. The still, which accommodated 2,900 gallons of mash, belonged to James Hill, James Hill and Marion Hill; they were charged with manufacturing Non-tax paid whiskey and placed in the Baldwin County Jail under $1,900 bond.
