Jeff Comer Loses — Will You Help?

Jeff Comer will not enjoy the outdoors, the boredom of school years, or any of the other pleasures of a normal life. He has been ahead of his time by six years.

Jeff is at St. Jude's Hospital fighting for his life. Doctors have told him his life span of less than two more years.

This tragedy came to the attention of the Day Student Organization through Senator Dennis Maynard, who lives in Jones County near Jeff's parents. There are large expenses surrounding the extensive treatment Jeff is receiving. He was uninvited before he was born and his family is in a financial struggle to finance his hospitalization and the expenses surrounding the necessary trip to Memphis.

D.S.O. has acquired the necessary paperwork and next week on Monday through Wednesday will sponsor the D.C. Jeff Comer Charity Drive. There will be stations in front of the E.U. and Lampe Hall. Donation points also will be set up in dormitory lobbies.

All proceeds will be deposited in the Student Bank and on Thursday a check will be sent to the Jones County Sheriff's Department, where our proceeds will be combined with those of several other local civic groups in the Jeff Comer Fund. Rarely is such a charity drive attempted on our campus. Day Student Organization sincerely hopes that G.C. can make a worthwhile contribution for Jeff.

TV Review

By: Charles O'Kelley

This week, and hopefully every week thereafter, I am stretching my neck even further out by recommending a full week's television viewing. Why? Because we now have the full use of a large screen television in our dorms and the following are my suggestions for the best of all possible viewing by a mixed group.

11:00 A.M. M. M. Patillo. NBC. Starring Jack Wild and Billie Hayes.

1:30 P.M. College Football. ABC. Florida Gators vs. Volunteers of Tennessee.

5:30 P.M. ABC Wide World of Sports. Special. Computerized light fight between the only two unbeaten heavyweight champs, Muhammad Ali and Rocky Marciano.

6:30 P.M. Peanut Special. CBS. "It's the Great Pumpkin, Charlie Brown." Starring the world's best flier, Charlie Brown.

8:30 P.M. ABC Saturday Night at The Movies. World Premier of "The Aquarian" starring John Flanigan.

SUNDAY: 6:30 P.M. Pro Football. NBC. The New Orleans Saints vs. Atlanta Falcons.

7:30 P.M. The Wonderful World of Disney. NBC.

8:00 P.M. The Bill. NBC.

9:00 P.M. ABC Special. NBC featuring Bob Hope to his neck in trouble again.

MONDAY: 8:00 P.M. Newton and Martin's Laugh-In. NBC. Featuring Green Wells remodeling his famous "Heyday," the Staccato of radio.

9:00 P.M. ABC Monday Night At The Movies. "Three Into Two Won't Go!" With brilliant performances by the three more famous New York Maskers.

11:00 P.M. Marcus Welby, M.D. ABC.

WEDNESDAY: 8:30 P.M. The Match. CBS. Special guest star Sharon Farrell.

8:30 P.M. Bonanza. ABC. The faculty and "Civilization" be damned.

9:30 P.M. The Andy Williams Show. ABC.

11:30 P.M. The Flinstones. ABC. Good morning to the sixties.

These are only suggestions for an evening viewing and the absences of programs from this schedule should not be considered as the absences of programs from the network.

The Population Bomb

The first Ecology seminar was held Thursday, October 23, in room 116 Happy Hall. The first in a series of guest speakers was George College's Dr. George Beadle, who worked on the following Wednesday.

The ecology seminar was an interesting but facts to be prepared for a great many statements. The real problem today is populating the earth. The world population is increasing 2 percent per year. There are 11 people per square kilometer (one-third of a million per day) and only 17 people per square world wide. Forty percent of the population today is under 15 years of age, who will be 2.5 billion in the next several years and will take about 46 years for the world population to double.

Another problem cited was that of man's, this being the world's leading cause of death. Man is the first of the food cycle and will continue to be in control of birth rate. Some suggestions on this were a tax on luxury, a tax on large families, or instead of subsiding; holding families to only two children. It is considered that the population figures of the 1970's. This may be due to the ratio of marrying late. Ireland has found a way to control the population, now what do we do about ours.

Orrade Anyone?

Park Memorial Infirmary originally started as an ambulance project; but as things turned out it was built with funds contributed by the friends of the late Harry M.

Park and of the college itself. Presently, at eight every night and five each evening, Dr. Mathew Majonec, college physician, makes his rounds of the infirmary's beds accepting one of the major staff of nurses. This staff is headed by Mrs. Margaret G. Wright, R.N., and includes James Magee, L.P.N., Clara Frazer, L.P.N., Rosalie Querci, L.P.N., Pauline Leando, L.P.N., and Olville Niles, L.P.N. These six women, each only 4'10" to 5'4", every seven a week a week, and the orphans never stop rolling.

The infirmary has a capacity of twelve beds. It is equipped with some of the most modern devices to handle severe diseases, such as flu, cutaneous, and legions faculty member. It is also ready to handle first aid cases, which may be why they hold the infirmary " showcasing to the infirmary. Your health fees, paid at the beginning of each quarter, cover the income of the doctors and nurses salaries and regular expenditures such as wearing of uniforms and a garnish for the wheeling of handicap necessaries. Only special services, such as drugs and dressings, or special treatment, require an extra charge.

In case of emergency, calls to the infirmary are referred to Balister Cabin Hospital, The infirmary does not handle such things as child birth or appendicitis.

Dr. Majonec currently advises that every member of the college community take advantage of the infirmary for the sake in which the infirmary is dispensing. The campus contains of two patients to doctor within three months after the fist. This.

Puppet Class; Staff Skeleton

Though it is a bit premature in projecting the mightiness of the rising senior class, let’s take a moment to reflect that not only a measly handful of seventy in our class are not only well on the way, but only five of which are, making not only an important contribution to the progress and growth of Georgia College.

It is now becoming apparent to those who understand the importance of the role Divinity in our current society. While also the main theme of the newspaper, we are often reminded that it would be more than an organ of the administration, but also of our school and our community. The problem is that this is a year in which we have less experienced leadership staff which to have our task.

As I’ll have mentioned previously only one editor board member will be here next year. In addition there are seven freshman officers of which one will be in charge of the staff, four officers who will be in charge of the student section, and another four officers who will keep the publication running smoothly.

Linda Judkins

Linda Judkins, a senior, is the first editor of the new staff over the old one. She has the task of planning the changes of the organization for this year and the next year.

Dear Reader (of this article):

I say that the grounds of your assumed assumption are false. In fact, I say that the grounds of the last paragraph, in last week’s paper, is reached by you to believe anything which you assume this paragraph, in last week’s paper, being assumed by you to be the case. And the case of the last paragraph, in last week’s paper, is reached by you to believe anything which you assume this paragraph, in last week’s paper, being assumed by you to be the case.

The committee voted to increase the number of members on the board which would have the effect of increasing the number of directors. The committee recommended that the board increase the number of directors to 15.

The committee recommended that the board increase the number of directors to 15.

G.C. Editorial Board

The G.C. Editorial Board, a committee of students, faculty, and staff members, is responsible for deciding the content and direction of the G.C. newspaper. The board meets regularly to discuss and plan future issues.

Special Banana Split - 39°

PLOW BOY Drive-In

Unfamiliar Faces

David Bryce

There is a new face in the faculty of this year, and we do not know the name of the man that we are welcoming. It is not that we are not acquainted with him, but we are not familiar with him in the context of the new faculty.

The new faculty member is a man of great character and is known for his wisdom and counsel.

There are fourteen of them, and they have been born with great wisdom. Each of them is in their own right, and these students are the ones who will be in charge.

For any Moretown students that are interested in the Full Gold Development and Guidance.

U.S. Concentration Camps Exist

The House Interior Security Committee is currently investigating concentration camps, especially in the United States, but with a previous hearing in the United Kingdom, it has found that there are no concentration camps in the United Kingdom.

Once over the bid for the United Nations, the administration is expected to take the necessary steps to ensure the safety of the students and faculty.

The U.S. Concentration Camps are considered to be a form of enemy occupation of Japanese-American citizens, who were rounded up during World War II.

However, it would still allow the President to review a group of prisoners and decide if they are in line with the concentration camp policies.

The committee recommended that the board increase the number of directors to 15.

The committee recommended that the board increase the number of directors to 15.

Who's Who In American Colleges And Universities

Brenda Armstrong
An elementary education major from Crispus, Georgia, has devoted much time to the college annual, the "Spectrum," and to the Student National Education Association. She has also participated as a Y-Dater and Junior Advisor.

Carol Brandenburg
is an elementary education major from East Point, Georgia. She is a past president of the Association of Childhood Education and served as a Junior Advisor. Carol, during her sophomore year, held the position of first runner-up to the Miss Georgia College Pageant.

Carole Calvert
a biology major from Dahlonega, Georgia, has served as Vice-President of Beta Beta Beta, Georgia College's honorary biology society. She has also been an active member of the Spectrum staff, a Y-Dater and a Junior Advisor.

Pat Ellington
Editor-in-Chief of the college newspaper, "The Collegian," is a chemistry major from Savannah, Georgia. Pat has also participated as a Y-Dater and Junior Advisor. Before taking the position of editor-in-chief, she served as feature editor and associate editor.

Cynthia Floyd
presently Co-Chairman of Honor Council, is a Math major from Brushwick, Georgia. As a Y-Dater and a Junior Advisor, she has been active in major college activities and received her Miss Georgia College in her junior year.

Bobby Wells
Co-Chairman of Honor Council is a Biology major from Marietta, Georgia. He has actively served as a member of the President's Cabinet, Circle I, Beta Beta Beta and as a student advisor.

Doris Floyd
a B.P.E.S. major from Dallas, Georgia has been active in major college activities aside from being a Vice-President of her Sophomore class, President of her Junior class, Vice-President of H.P.E.R., and President of the Georgia College Choral Association.

Jane Nix
a Home Economics major from Alpharetta, Georgia, is past editor of the College yearbook, "The Spectrum." She has been a Y-Dater, J.A., and a member of Phi Sigma, a national honorary fraternity for Home Economics.

Ellen Johnson
a Spanish major from Conyers, Georgia, has been a Secretary to the Spanish Club, a member of the International Relations Club, and of Phi Sigma. Ellen presently holds membership in Phoenix, the highest Scholastic society attainable at Georgia College.

Glenna Roper
a Music major from Conyers, Georgia, has served as class song leader since her Sophomore year. Glenna was a Junior Advisor and was active member of the Georgia College Cheerleaders.

Susan Jackson
presently Vice President of the College Government Association, is an English major from Newnan, Georgia. She has held the office of Secretary to the International Relations Club and Vice President of Phi Sigma, the Scholastic Scholastic honorary society.

Jackie Madison
a Sociology major from Macon, Georgia was active as a J.A. Junior, and has served on the international relations projects, such as the Central States Hoping Program, and now serves as President of Agape.
Once Upon A Hike

by Charles Oberleitner and Marilyn Platz

"Once Upon A Hike" is a fictional narrative that was last week. It is being written by our own accord without any pressure from the Athletic Department. It is the story of a faculty member who goes on a nature hike. Therefore, please accept our apology for the near destruction of the faculty! This is not the last time.

I purposely did not report all the facts to make my argument more effective. In the editorial I gave the impression that no one was attired for the outing. Dr. Smith believes that all proposals must be taken for one season and may be passed the second. I learned that many things were passed last Tuesday at the second meeting. So be it remembered that the Council doesn't get anything.

I would also like to clarify my position on the P.E. credit for varsity players proposal that I suggested. This is done throughout the university system, but due to the short time since we changed to a co-ed school this has not been gotten along with many other things of this sort. But I think that it is only a matter of time before we can catch up with the rest. At any rate, there is no opposition to my proposal that will have to be tried out before progress will be made.

This is very true, and I am not headed in regarding myself from trying to get this passed, but I will pursue it in a different manner. I plan to go through the administration in the prescribed order. I found this week that one cannot depend on the Student Body for support in matters such as these. This is the most disheartening thing about George College. The students just don't give a damn, about anything. I asked for letters to show the Council how the Student Body feels about the matter and received not the first one, not even from the varsity players. Therefore, I will match your argument with ability. I will get myself into hot water (as I am already with the members of the council) over something that has been brought to the Associated Students.

In closing, I hope that each of you will take this college seriously. It is not only a community for higher learning, but it is learning to deal with people and to handle the matters that affect you directly. In the time I have been here, I have yet to see a student who did not benefit from being a member of the Associated Students. In the long run, it will be a much less interest in them. I hope that you will join your in- terna and externs and get together and act as if you are getting all the education that is offered at a college.

An Editorial:

Apology With Reproach

by Clyde Holmes

This is a formal request for the original that I wrote last week. It is being written to my own accord without any pressure from the Athletic Department. I am pleased to report that I have found this week that one cannot depend on the Student Body for support in matters such as these. This is the most disheartening thing about George College. The students just don't give a damn, about anything. I asked for letters to show the Council how the Student Body feels about the matter and received not the first one, not even from the varsity players. Therefore, I will match your argument with ability. I will get myself into hot water (as I am already with the members of the council) over something that has been brought to the Associated Students.

In closing, I hope that each of you will take this college seriously. It is not only a community for higher learning, but it is learning to deal with people and to handle the matters that affect you directly. In the time I have been here, I have yet to see a student who did not benefit from being a member of the Associated Students. In the long run, it will be a much less interest in them. I hope that you will join your in- terna and externs and get together and act as if you are getting all the education that is offered at a college.

Sports

Soccer Team Drops Two More

The College lost both St. Bernard and Erskine that week. Both games were played very well by all the teams, but we see just didn't get us up.

Last Saturday when the game against St. Bernard was played the final score turned up 4-0. Bernard got off to a good start as they scored their first goal after only a couple of minutes play. The psychological effect on our team was not good since this was a new win for us.

The first and second quarters were a constant battle between the teams. The team got into scoring position a number of times but just couldn't materialize a point. In the second quarter the Rangers got two more points as every very good team work.

In the second half Coach Persimmon set up new strategy. In order to prevent their further scoring he set up a four men full back trap. This worked very well and kept them from scoring except for one more point on a penalty kick.

St. Bernard looks to have a much better team than the much anticipated. St. Bernard had one of the best games but we got out one a match for the Saints.

The second game played here Tuesday against Erskine was scheduled to be a draw, and if you only look at the score line it was. However, Erskine was defeated 4-1. Although they got their seven points it was surprising to see how well the College handled to keep their hopping. They did not dominate the game and the final score was nearly thirty five minutes to the point for the College.

This game was a real surprise that we were not surprised. The College team had been working off with some of the fall in pressure over the quarter. The team started in fury and when Erskine's first point was back to the letter half of the quarter quarter (especially in some sets of exhibitions) our boys who played the entire game and were not allowed to hold them to the seven points they had already gotten.

Once again Steve Blair had a good day on the field. Jimmy Williams, Claude Poole, D. James and Mike attire also showed up good on the field. We were sorry to see Rich Hight knocked out of the second quarter of the College game. He was put in the infirmary for observation but there's nothing more serious than a black eye reported wrong and he'll be back next game though he did get out of practice for awhile. He was replaced by a rookie, Mike Fiddler who turned out to be a ringer good on well. Another rookie, Joe Hilter, will and should be in an effort when the interchange are graduated.

I hope to keep up with these teams every week but we are not indicative of the quality of our team. They show a real skill on the field, as an effort to team work that makes that team good.

Is there's hope they can pull some wins out of this season yet.

They'll be playing Mercer next Wednesday, the 29th. That game will be played here at Bobbitt Jr. High and you should go out and watch the team. Don't forget to take your respective order for the dorm trophy.

To Editor

To be seventeen feet by twenty three feet in size. We don't have many of these on campus.

I could say more, but if your mind had been open on the subject I would not be writing now. You branded my practices in campaigning unethical. I ask you if it is ethical to hold a secret ballot election and not provide voting booths? Is it ethical to restrict a man's freedom of speech by restricting the media of his campaign? Is it ethical to attack people on unchallenged charges and slander their names without first giving them a chance to explain their reasoning?

What hope do we have against such unethical news writers? In answer I quote, "The only hope is that some will not return Winter Quarter and their empty seats may be filled by more reputable persons."

Sen. J. Harvell Boyer

Oxnard Anyone?

gives everyone plenty of time to get both shots in before December and will allow them to benefit the sale effects over the Christmas holidays.

Other services offered by the infirmary are: Dental ap- pointments, with the local dentist of your choice or one within walking distance if you don't know any. For those of you who have reached the end of your reps, the infirmary can arrange counselling of either a religious, sociological, psychological and or a psychiatric nature. In all seriousness too many people who could benefit from this valuable service do not, due to the fact that they do not know that exists. It is of a greater value than most people think.

A lot of talk has been going around that students in the infirmary are not allowed visitors. This is not true; it is just that they are allowed them at the times you can't make it over. The only times that the infirmary absolutely insists that you not visit are when the doctor is making rounds (for a crowd cramp his style with the bonds and filations) and late in the evening, say like after you have just gotten back from the dark half wrecked. Slight has a tendency to make the patients forget their dismal fate.

You are asked to remember that boys are not allowed to visit girls in their rooms and girls are not allowed to visit boys in their rooms. However it is perfectly all right for both sexes in to mix under the continual supervision of the television set in the lobby. Remember if your boyfriend or girlfriend is really sick the sight of you might cause a relief and have anything but a good effect on the loved one.

In conclusion, the infirmary reports that business has been slow this year, no serious illnesses have been reported. You are reminded, however that Winter and the cold, flu and hepatitis seasons are yet to go. You can as mentioned earlier take steps against the first two but the only known precaution for the third is to stop eating in the calidors.

Annual Hike

Among the highlights of the days events was the half-time show, which featured Bobby Kelly's adopt playing of a paper dragoons which blind red spray paint for the remainder of the afternoon, and the senior class's performance of Winnie the Pooh. Other highlights included a croquet game, which looked as though it had come straight from "Alice in Wonderland," complete with live wickets which would collapse, jump, or be carried off the field at the approach of an opponent's ball. The games were topped off by a senior-faculty softball game played entirely in bathtub parts. The seniors hopped off with this victory.

And so, somewhat battered, worn out, gagged, happy, and just generally out of it, our gladiators trudged back to front campus, were dined on cold greasy fried chickens, fatty hot dogs, pickles, and apples.

Student Senate

Council their outline for a new core curricula. Thoughts on the subject were unclear and discussion was nil. The next Senate meeting was planned for Tuesday, October 27 at 7 p.m. and the meeting was adjourned. Following this meeting the Day Student senators met to elect floor Leader and Floor Whip. David Pettifog was the only senator nominated and thus was unanimously elected floor leader. The position was held for by Steve Simpkin and Ken Powell, with Simpkin elected by a large margin.

mend the pump and splendor of white columns and oozing pecon trees on our old Southern Majestic front campus. But this did not end the 1970 Annual Hike, for there was yet to be a dance at 9:30 in the green, pick, north dining hall. And so we bid a fond farewell to Annual Hike.
