"Be good to your feet-you can't have another pair"
Dear Editor,

We always considered you an integral part of our college student. We write to you from the perspective of several reasons. Many of us are as really grateful for your daily columns, for they are a source of inspiration and motivation. We want you to know that you have always been there for us.

Your columns have always been there for us.

We need your help in a critical situation. We are facing a crisis that affects our college and its students. We are writing to you to ask for your assistance in addressing a pressing issue.

The issue is related to academic freedom and the right of students to express their views. The administration is taking actions that limit our ability to engage in open, honest, and respectful discussions. We are concerned that this could undermine the quality of education and the development of critical thinking skills.

We are asking you to support our cause and to urge the administration to respect our rights. Your voice is crucial in this matter, as it can raise awareness and pressure for change.

Thank you for your time and consideration. We look forward to your response.

Sincerely,
[Your Name]

P.S. We are looking forward to your next column and hope that it will address this important issue.

Changes Proposed For Core Curriculum

The original proposal for changes in the Core Curriculum as it was approved by the Academic Council and presented to the faculty was as follows: Areas I: Required, English 101, 201, 301; History 101, 201, Modern Foreign Language, Speech 101. Total 15 hrs.

This proposal was not even considered by the faculty at their last meeting. Subsequently, the Academic Council worked out a compromise proposal, to be presented at the Thursday night, January 20th faculty meeting. That proposal is as follows: Areas I: Required, English 101, 201, 301, English 200 level offerings 5-10 hrs. Total 25 hrs.

Selective Requirements (3-5 hrs). A choice of one or two courses from the following list: Art 101; Music 101; Philosophy 200 or 210; Modern Foreign Language (degree credit for single course).

The Student Senate endorsed the first proposal and feel that the compromise proposal is not a true substitute for the faculty consensus that proposal. The faculty will just have to have faith in their own abilities and by keeping informed via the most recent published each week by the Academic Council. Any changes in the Core Curriculum will be directed at the faculty representatives on that council just as do students, utilizing and informing their very excellent representatives as to student ideas. If any information in this article concerning faculty meetings is incorrect, please forgive and remember that these matters are highly classified and all information available in dependent upon the leaks in faculty security.

Radio Free Milledgeville

Have you tuned into the "new" radio station of Milledgeville? No, I'm not talking about WWRU, but WOKK, a radio station soon to be made famous by the Beacon Burns. Students are not aware of the intellectuals D.J.'s as they put forth a two hour program of music news, and comment. The radio station operates on Tuesday's and Thursday from three o'clock to five o'clock during special events such as football games. The request line is open twenty-four hours a day, just call 452-0802. If anyone has a letter of comment or an editorial he wants to put over the air send it to be in by 1100. Support the Burns in their latest accomplishment by coming out to the tennis courts to hear their next broadcast. But remember, this radio station is subject to being disbanded by the King of G.C.
