Letter From CGA President

Dear Student Body:  
During the few weeks after my election as President of the College Government Association, I heard many pleasing cries of the G.C. students—the loudest being "change, change, we want something changed around here." Well my friends, in trying to fulfill our duties as officers of CGA, the Executive Council has initiated several proposals for change. But to our best knowledge we find that no one has enough initiative to help effect these changes.

The one specific example that I have in mind is the recent decision of Fall Retreat to reconvene Slipper into a coiled production. We voted in a democratic manner to CHANGE Slipper, but alone in my decision, I have heard a jumbled mixture which, I suppose, is to be defined as opposition to change Slipper. "What's the matter with you? What commandment says, "Dox not change Slipper"? Was the GSCW or Georgia College or SCGW or Georgia College or GSCW or . . . . ?" What are we anyhow?

To be completely fair as possible about this, I have listened, I have heard the manifestation of opinion from the students, I have thought, and I have decided that, in the best interest of Georgia College, we must reconvene the members of Fall Retreat in order for them to reconsider their decision. We are the men who will be the chance to alter the original decision, but we have a definite feeling about Slipper, let one of these representatives know about it.

We will be meeting on October 10th at 7:30p.m. I shall be able to make it perfectly clear that this will be the final decision and whatever is decided, then will stick.

I cannot end without stating a few personal comments. I think it is sad to see the G.C. students who "love" Slipper as much kill it. Yes, I feel that Slipper is all its past grandeur is dead. Change is inevitable for Georgia College. We're all being selfish and thinking of only what is best for Georgia College, now or for its future.

I also think it is the height of impudence when people complain of the Fall Retreat vote being a majority vote. Well, my unacquainted friend, if you would take time to actually read the Student Handbook and the CGA Constitution you would find no mention whatsoever of a majority vote. Was the last time you read your handbook? Don't you think it's about time?

Only two or three people have taken the time to show their interest by personally talking with me about their displeasure. If you are going to take the energy to best, why not do it in someone who can do something about it?

To you, the so-called new generation of Georgia College students, I offer this word-cry--change is what you've cried, stick to your guns and be at least as stupid as your grandfathers, or don't attempt to whimper. Change takes guts--it's a challenge that takes work and enthusiasm--when was the last time you thought that "Snipes" was as cowardly?!

Sincerely,

[Signature]
