Action Line! Starring Mike Williams

Dear Action Line,

The faculty meeting results published in 11-7-74's Thryty contained a recommendation that academic excellence be officially recognized and indiciated. Criteria for recognition for graduation distinction to be on the following basis:

Cum. G.P.A. 3.5-cum laude
Cum. G.P.A. 3.0 magna cum laude

I feel this is utterly ridiculous and I find that I'm not alone in this opinion. I suggest you talk with Miss Barbara Time and find out why it is thought necessary that G.C. have the highest standards for graduation recognition in the state. If you know of any comparable school within the Georgia University System, or even a private sea, with requirements greater than the ones given, I would be interested. G.C. P.A. 3.0, 3.5, 3.7, would be too much and not relate more closely to the standards held by other schools. Let's get some action on this matter. Realize than it is impossible to make the Dean's List for 12 straight quarters and not graduate with honors. There is something rotten in the state of G.C.

D.H.

Dear D.H.,

I took your advice and talked with Miss Time and she told me a couple of things. Number one, when someone is selected for Phoenix which is in the top seven percent of the graduating class, they have "Phoenix" printed on the diploma. Many graduate schools and other places of higher education do not always know what Phoenix means so they raised the standards to make up for this. The committee that decided this is having a meeting this week to set the standards. If you think this is happening, please make a request to the Director of the program, Dr. Deneke, and then.

The students lived and attended classes at the University of Madrid. The living quarters consisted of one room per student. The dormitory had its own private swimming pool and tennis and basketball courts. The academic program was conducted by native Spanish professors from the University of Madrid and American instructors.

The students toured La Mancha for two days visiting all the interesting places related to Cervantes and Don Quixote. They also visited Salamanca and Burgos as part of the group's activities. The program was well received by all students and a great success.

Each student paid for his own room and meals at a very low rate, which was very reasonable. The program was well organized and executed, and the students enjoyed their stay very much.

Keep On Struttin'

by Walter Vinson

Announcing the annual Cool Thing Run! This year the Run will be held at Denver Park with the course being a short cross-country run in the vicinity of Denver Park. (I ask you not to cross-country run in the vicinity of Denver Park."

Each member of the winning team will receive a trophy to take home for Thanksgiving. Sheila Wood and partners were in attendance for the past two years, but she says that she will not return again. Who will the new winners be? Come one, come all, to the Cool Thing Run on November 20, 4:40 P.M. at Denver Park.

Summer School in Spain

Each year, for six weeks of the summer, Augustana College in Rock Island, Illinois, offers to students in the United States and Canada an opportunity to study in Spain.

Last year the program began on June 20. The 380 students from 25 states, Cuba, Canada, Haiti, Mexico, the Virgin Islands and Puerto Rico, representing 40 colleges and universities from Madrid to Mexico City, were directed by the Program, Dr. Deneke, and staff.

The students lived and attended classes at the University of Madrid. The living quarters consisted of one room per student. The dormitory had its own private swimming pool and tennis and basketball courts. The academic program was conducted by native Spanish professors from the University of Madrid and American instructors.

The students toured La Mancha for two days visiting all the interesting places related to Cervantes and Don Quixote. They also visited Salamanca and Burgos as part of the group's activities. The program was well received by all students and a great success.

Letter No. 2

Dear Editor:

I would like to know when the Manager's Bag Staff intends to get together to pitch their shots against a number of chances to their fans. If there are two different positions behind the counter the price of a sandwich, I'm sure I'll get two different answers, and when they're both up to pay for the meal the price has immediately changed again. I'm one of those for whom I don't agree on what they're going to charge!!

And, when the problem is the sign allegedly supposed to be put up which price would be paid? If they're both up in the sales I agree that the two different signs must be in the old style. Going to, I would even agree to a little bit of a price rise.

One further gripe. I think that it would be remunerative of some enlightened soul to tell the passengers how the difference is a serving, a double helping, and other multiples helpings of food. Cost in point. (One morning I asked for a double helping of omelett. The lady behind the service counter plumed her hair to see my mistake. However, when I went through the line I was told I was over because I was being carpeted to double-helps--not for a double helping of omelett which should have cost me all of one.)

There is one remarkable thing about the Steak Bar--the look who waits behind it make reservations absolutely by the presence of John and all those haggard looking faces, but those two meals a week. Usually at least when I've stopped there, I'm the only one behind that counter. If there is nothing to do taking anything or 내기Bang, we're to just hang the line, at any rate.

The other lady always manages to get a hungry student with a courtly and friendly smile and attitude--even after making reservations for what seems like a hungry student on the other end of the line.
MEN’S FIRST QUALITY POLYESTER SLACKS
Solids
