G.C. What?

Upon realizing the fact that many Georgia College Students do not know what G.C.A. is or what it does we have undertaken the task of informing the students and friends of Georgia College.

Stewart Udall

"Agenda For Tomorrow"

Guidelines for attacking our most pressing problems and for establishing a larger and more humane society by our 20th anniversary as a country.

President Udall was appointed Secretary of the Interior by President Kennedy in 1961 and served in that post for eight years in both the Kennedy and the Johnson Administrations.

Mr. Udall was then appointed to the Cabinet where he shortly after his resignation is a fourth term as United States Representative from Arizona. He has recently formed and become the chairman of the Board of the Oversight Group, a pioneering science consulting firm which works with governments and industries to create a better environment for man. Mr. Udall is dedicated to continue the work of the "new conservation" which he initiated as Secretary of the Interior.

The program will be open to the public with no admission charge.

Slipper Bill To Come Before Senate

President Juan Ravalo has appointed a temporary Golden Slipper Committee. This bill will be voted on Monday night, January 15, 1973, at the first senate meeting of Winter Quarter.

Ravalo admitted at a meeting the previous quarter, that after viewing The Slipper Project he felt he and other G.C.A. officials had condemned the tradition unjustly. The purpose of the committee is to see that when and if Slipper is abolished, it will be by the will of a majority of the students, not just a few.

Senators are elected to represent the students in their duties. All students are urged to keep this in mind. Find out who your Senator is and let him or her know your attitudes about any upcoming legislation.

Colonnade Cutie Of The Week

Miss Deborah Campbell, Freshman-English Major from: Cartersville, Ga.

Georgian College Association, the U.S. Forest Service, and the commercial vegetable industry will appear in panel on April 12 to talk about the future of forests in Central Georgia with Dr. Frank B. Vose, assistant professor of history at CG, serving as panel moderator.

Representatives of the Georgia forestry Association, the U.S. Forest Service, and the commercial vegetable industry will appear in panel on April 12 to talk about the future of forests in Central College, the College Government Association of Georgia College is a very active body of elected and appointed students led by President Gall Stanford centered around the representation of the students and the college. The following is a report of the activities and services rendered by C.G.A. during the fall quarter of 1972.

G.C.A. initiated the first days in a long campaign for an alcoholic beverages proposal for G.C. in late September C.G.A. conducted a meeting for Who's Who at Alcoholic Colleges and Universities. Thirty seniors were selected by the junior and senior classes and from these citizens were chosen.

The people were: Gall Stanford, Juan Ravalo, Crystal Fendt, Becky North, Craig Sturgis, Bill Farley, Bill Ferrell, Virginia Whites. Jim Walker, Carol Jones, Jim Smith, Cindy Branthwaite, Ed Brown, Susan Rogers, Be Sheffold and Beth Thompson. The Student Senate of G.C. passed three bills fall quarter, these were bills recognizing the Chess Club and a new fraternities People Delta. The other bill was a alcoholic beverages proposal which is now waiting for action by President J. Whitney Huns. Five representatives from G.C.A. attended the meetings of the Campus Action Team at the Mansion. These representatives were Gall Stanford, Bertha West, Cheryl Jordan, Mark Hense, and Gil Way. October 13 and 14 four representatives from G.C.A. attended the Student Advisory Council meeting in Valdosta. Georgia Representations from 27 colleges and Universities in the University System attended the conference. Gall Stanford, Keith Smith, Jim German, and Martha Laird represented C.G.A. as a member of the Student Legal Rights Committee of S.C.A. They are presently compiling information on alcoholic beverages policies at all the state and in the university system. Georgia College Student Government Association (S.U.G.A.) Enactment Meeting in Atlanta. This conference was attended by Rapid, Georgia College, Athens and Free. These delegates from Georgia College, Athens and Free attended a second N.S.C. meeting in Charlton, North Carolina.

Work began on the 1973 production of "Golden Slipper" November 8. Two successful performances were held November 17 and 18.

Plans for a President's Advisory Board are now pending action by the Student Senate. The purpose of this board is to facilitate communication between people and organizations on the Georgia College campus.

The first issue of the "Golden Slipper" was published at the end of last quarter and is available at the homecoming bulletin published by C.G.A. to announce the students and friends of Georgia College of the seminars available to them on the campus.

Details On Homecoming

Seminar On Environment To Be Held At Ga. College In Spring

Representatives of the Georgia Conservancy, the U.S. Forest Service, and the commercial vegetable industry will appear in panel on April 12 to talk about the future of forests in Central Georgia, with Dr. Frank B. Vose, assistant professor of history at CG, serving as panel moderator.

On April 4, Dr. David L. Gerte, chairman of the College Department of Biology, will serve as moderator of a panel taking a look at the future of fish and wildlife in the state. Panelists will include representatives of the Georgia Game and Fish Commission and the U.S. Bureau of Sport Fisheries and Wildlife.

The May 3rd seminar will cover the future of surface water use in the region. Charles F. Danelson, associate professor of biology at the college, will serve as moderator at a panel that will include representatives of the U.S. Soil Conservation Service, the National Forest Service, and the state water disposal division.

The final meeting in the series will be held on May 10 on the topic of outdoor recreation in the middle part of the state. Panelists will include representatives of the U.S. Bureau of Outdoor Recreation, the Georgia Parks Department, and the Sierra Club. Floyd V. Anderson, chairman of the department of health, physical education, and recreation at CG, will be the panel moderator.

Each seminar session will last two hours.

Display Plans For Homecoming

Plans are underway for the 1973 Homecoming (January 21-27). Any organization, club, or department affiliated with Georgia College may enter a display. Displays will be judged on Saturday the 26th at 12:00 noon. Any group interested in doing a display, please turn in an application (of what you would like to have gone on) and we will see who can use it. This Friday, getting them out, check at the information desk in the College Union Building for Walter Young, G.C.A., to pick up on January 19, 5:00 p.m. The National Guard Armory will be available the week of Homecoming (February 23-25) for the convenience of the participants.

Miss Georgia - USA

For 1973

The search was on in the Miss Georgia-USA contest for 1973, the young lady who had not won the Miss USA Beauty Pageant. The winner of May 5 in Atlanta was Miss Julie Louis, reigning Miss America and a contestant in the Miss Universe Pageant for 1973. For the winner, instant fame and fortune plus many exciting prizes and awards. Tech students who make up a small and hard-working team of 1500, the current Miss Georgia will have a busy schedule. For the full effect of her appearance, Miss Julie Louis will don gold and puff balls to represent the State of Georgia. She will wear a gown of gold and white, a tiara and a crown, and will make a donation to Miss America Pageant. She will receive $35,000 in cash and a new car. She will also receive a diamond ring and a set of diamond earrings. The entire team of Miss Georgia-USA has worked hard to prepare for this day, and they are ready to do their best to win the coveted title of Miss USA.

Beard-Ed.

Charles E. Beard, director of the M.S. College of Education at the University of Georgia, has been named as one of the 20 outstanding educators in the state of Georgia. He is a member of the Georgia University Board of Trustees and has served on the Board of Regents since 1967. Mr. Beard is known for his dedication to the education of Georgia students and his commitment to excellence in education.

Maxwell University

The Maxwell University Board of Governors has announced the appointment of Dr. J. William R. Brown as the new president of the university. Dr. Brown, who has served as interim president since 1972, will begin his term in office on January 1, 1974. He succeeds Dr. John A. Mulligan, who stepped down last year to become dean of the College of Arts and Sciences at the University of Georgia.

Six Traits That Spell Success For Science Graduates

The fortunes of industry and education are dependent on the quality of the graduates of our universities and colleges. While industry needs a constant flow of trained engineers, biologists, chemists, and physicists, educators need new teachers, scientists, and research workers.

What skills should science professors possess in order to achieve their maximum efficiency and effectiveness? It depends on the kind of instruction that is to be given. Science professors must possess the ability to develop pure and applied sciences and the ability to relate pure and applied sciences.

The first step in science education is the ability to think critically. The ability to think critically is the ability to think about the nature of the problem, the nature of the evidence, the nature of the conclusions, and the nature of the solutions. The ability to think critically is the ability to think about the nature of the problem, the nature of the evidence, the nature of the conclusions, and the nature of the solutions.

The second step in science education is the ability to work effectively with the evidence. The ability to work effectively with the evidence is the ability to use the evidence to form conclusions and to use the conclusions to form solutions.

The third step in science education is the ability to think about the solutions. The ability to think about the solutions is the ability to think about the nature of the solutions, the nature of the evidence, the nature of the conclusions, and the nature of the problems.

The fourth step in science education is the ability to think critically about the solutions. The ability to think critically about the solutions is the ability to think about the nature of the solutions, the nature of the evidence, the nature of the conclusions, and the nature of the problems.

The fifth step in science education is the ability to think about the solutions. The ability to think about the solutions is the ability to think about the nature of the solutions, the nature of the evidence, the nature of the conclusions, and the nature of the problems.

The sixth and final step in science education is the ability to think critically about the solutions. The ability to think critically about the solutions is the ability to think about the nature of the solutions, the nature of the evidence, the nature of the conclusions, and the nature of the problems.

The sixth and final step in science education is the ability to think critically about the solutions. The ability to think critically about the solutions is the ability to think about the nature of the solutions, the nature of the evidence, the nature of the conclusions, and the nature of the problems.

The sixth and final step in science education is the ability to think critically about the solutions. The ability to think critically about the solutions is the ability to think about the nature of the solutions, the nature of the evidence, the nature of the conclusions, and the nature of the problems.
March 1971
1973 Season Outlook For Georgia College

Georgia College To Operate Baseball Clinic In February

In College’s softball history it is indeed probable that the time is not too far distant when it will be said that the best of all worlds is our own, and its advantages and delights.

The Metropolitan Baseball Club of Georgia College is pleased to announce that, for the second consecutive year, George Bailey, the noted baseball coach, will be coming to Milledgeville to conduct a baseball clinic for the College’s softball team.

Coach Bailey, who is currently the head baseball coach at the University of Kentucky, was previously the head baseball coach at Georgia College, and has been working with the College’s softball team for the past two years.

The clinic will be held on the College’s softball field, and will be open to all eligible players. The clinic will cover all aspects of the game, from pitching and catching to base running and fielding.

For more information, please contact Coach Bailey at the University of Kentucky, or the College’s softball coach.

Sports

"A Mirror Of Reality"

There was the night we lost our way.
And found each other.
There was the morning you called to say, "I love you."
There was the moment you brought me the last of summer's flowers,
plucked from where special placed in a vase
and in my heart.

You're gone now.
I sit at my window,
watching the scenery pass.
Each wave
And then, you see.
They go.
Leaving nothing but memory.

You're gone.
-Susan Butcher

"The Soldier"

As I walked through the trendy rice paddies,
I thought of the people we had,
I asked a young soldier, all skinny and light.
I asked him to stay,
"You see your family, young soldier."
He said in a tone as I had heard no tone.
"I'm not a soldier, but now I'm regarded."
"I'm not from this land, but now I'm regarded."
I'm walking north to my home, I shall die.
"Please tell my family that I shall miss them."
"Please tell my family that I shall miss them."

There were tears, tears.
There were tears.
There were tears.
I shall die.
"I can't shoot."
I pulled out my gun to my head.
Oh, how blue is the sky, the sky of my death.
How blue is the sky, the sky of my death.

Open Letter To Art Editor

Dear Art Editor,
I have heard of this new method
being used to teach art to all.
I am delighted. Sometimes I believe
that many students have the same feeling toward Art.
Art is as safe as a classroom. I believe
that the students are learning with the teachers.
Art is as safe as a classroom. I believe
that the students are learning with the teachers.
Art is as safe as a classroom. I believe
that the students are learning with the teachers.

Sincerely,
Janie Jones

"Hard To Say"

I've turned in distinctive quotes
and quite a few.

The children laughed
and the truck played
and I left the road down
or at least it was.

I left it
and again to get on
I didn't care too much
for another hand.

Melody Turner

"Almost!"

City sidewalks
City streets
Pipes of people
Writing down the roads
Telephone poles with the cars
One way signs sign
Boys on corner
One man in a suit
One man in a suit
One man in a suit
One man in a suit
One man in a suit
One man in a suit
