RCC Student Crowned Miss Robins AFB

"The Last of the Fair" is Miss Beverly Guin, a Robins Resident Center student, who was last chosen as Miss Robins Air Force Base for 1974. In coming up with representatives from all organizations at Robins Air Force Base, Miss Guin was crowned on Wednesday, 17 October before an overflow crowd in the Base Service Club.

This was Beverly's first try for a beauty title. She said the fees of the competition and spent a busy week adjusting to demands of the contest. According to Beverly, "I was so nervous and excited before the pageant that I was awake until 2:30 in the morning and was not expected to sleep the night I won."

Miss Guin has been employed at RAFB since 1966 and is currently working in Maintenance as an Electronic Technician and is participating in a 3 year training program in Electroics.

Beverly is the daughter of Mr. & Mrs. Beverly Guin of Milledgeville and is a graduate of Eastman High School. She enrolled at Robins Resident Center in January 1971 and has attended continuously since that date. She is not complacent about her success, however, and has maintained a B-average.

A dedicated student, Miss Guin has expressed a strong affection for the Resident Center program. "I have always had a keen interest in education," she said, "and have long wanted to go to college." Now that she is in college and since EBC is open and tuition assistance is available, she said that the chance is to do something about it. "I love my studies and won't let anything interfere. Even though I have to represent Robins Air Force Base, I will be very demanding for me, I intend to remain in the College program." Currently Miss RAFB is enrolled in Biology III under Mr. Pettit, which directly helped her in the competition. She was asked to respond spontaneously to the question: "What book would you take with you if you were a Skylab Astronaut?" Her reply was, "I would take my Biology Book and my notes so that I would better understand what was going on."

Eventually Miss Guin hopes that her college education will open new opportunities. She has a keen interest in working with handicapped, underprivileged and mentally retarded children. If she is not busy with her studies or traveling, Miss RAFB Beverly may be found on the tennis courts or at Lake Sinclair water skiing.

The students and faculty at EBC are proud of Beverly and her well earned achievement.

Brown’s Crossing

By Janani Sridharan

Anyone who traveled between Macon and Milledgeville in the past would rarely notice anything unusual in the highway except for the occasional downpour or a valley country road. Perhaps only people who were “just plain folk.”

Actually, the place was an old coachman’s feria commonly known as Brown’s Crossing. Brown’s Crossing, once a small hamlet, now stands at the edge of a city that was a part of a very popular road that made Mafia from Macon and down on every year. These folks gather to admire and try to obtain讪釋 their skills from all over the neighborhood. They appear to be the easy-going atmosphere of an era now almost forgotten.

And although these folks travel far to visit the town, they seem to enjoy each other and live in peace and quiet.

By the way, the name Brown’s Crossing could represent a railroad crossing and a place where people were “just plain folk.”

You Learn Something New Everyday

Every day can be a learning day. Looking at the page of history and learning about some historical circumstances brings about a wide array of emotions. The whole world seems to be a book to be read.

Mrs. Betty Hodges, the founder of the college, was born in a family of twenty-one children. She was the first black woman to graduate from a college in the United States.

The Lady with the never-ending smile and always cheerful demeanor, had these very excellent women workers that help her sort and pack in the mailrooms the records of mail that arrive at Georgia College each day. Besides this job, our Georgia College Postmaster handles all the inter-office mail that must be carried on between different departments of the organization that is on campus.

This week’s Synagogue Society presented its annual fall concert on October 13th. The program consisted of music from Georgia College, and from other colleges and organizations across the country.

The program was well-received by the audience, who were energized by the music. The performance was a testament to the college’s commitment to the arts and education.

Fogarty on Soccer
The Georgia College Soccer team is in the midst of some play in being honored in a winning record this year. "There are all the differences between George and the College and the University," said Coach Hall. "We've got a good chance to win every game."

The College fell in their first match to North Florida, "We had no game experience," Fogarty said. "The College players have never played before and we're unable to sustain it in practice because of the small size of the squad.

With a loss and rain game experience under their belts, the College went to Georgia Southern in Americus and came away with a 3-0 win. Next they took on Oglethorpe and won 3-0, with Bartlet Walker, Harriett Armitage, and Charles Armitage. Three of the College soccer team were good for one and Saloon Cousins had a good goal in the first half and another in the second. Their second season record is now 2-0, while Georgia College stands 3-0.

I am writing to you because there have been complaints from many of the guests about the noise and disturbance caused by some of the visitors. In particular, there have been problems with the music and parties that take place in the evenings.

I believe that it is important for the hotel to maintain a peaceful and quiet atmosphere, especially in the evenings when the guests are likely to be resting.

Riot Does Not Break Out at GC

by Wade Taylor

At a riot that failed to break out yesterday at GC, two students and a Georgia Guardian were not killed. The riot that did not start as a peaceful demonstration, did not grow into a full force riot until later in the evening.

The riot was not caused by the food service or by the midnight fire drill. At approximately 9:29 G.M. Jimmy Carter's band to respond when the GC Security did not call for help. Realizing Patton and Hunter were dead, Cordie also failed to call on the Georgia Military College Cadets (thank God).

The rioting students did not give a list of demands and they were not granted their request; however, the school's Dean did not know off campus at all.

The National Guard, G.M.C. Cadets, Hitler, and Patton are still not stationed just outside in case of further trouble. School officials say things have not been restored to normal, even after GC did not have first riot.
